St. John's College

St. John's College, and our iconic great books curriculum, is radically different. Our students, known as Johnnies, pursue a common curriculum where they read the great books and participate in small, discussion-based classes of 20 students or fewer. Instead of having majors and textbooks, Johnnies take inter-disciplinary classes that explore ideas in philosophy, literature, math, science, music, language, politics, and more. St. John's is known as the most rigorously intellectual college in the country, engaging great authors from Plato to Shakespeare, Cervantes, Newton, Austen, Darwin, Einstein, Woolf, and Du Bois, to name a few.
